NORCALS BENGALS
HEALTH GUARANTEE

NORCALBENGALS HEALTH GUARANTEE

Thank you for making the decision to Purchase one of our Bengals. We want to make this a stress free and an enjoyable experience for you. Please feel free to email or call us with any questions or concerns that you might have along the way.

This contract is written for the protection of both the seller/breeder and the buyer. However, it is primarily written to protect the health and general well being of the Bengal.

- Seller/Breeder guarantees that the Bengal/s is free of life-threatening diseases or disabilities to their knowledge at the time of change in ownership.
- The Bengal/s will be up to date on Vaccinations and Deworming treatments. It is very important that you continue the vaccinations and deworming treatments per your Veterinary guidance. Please do not expose your kitten to other dogs/cats that are not vaccinated until he/she has completed the entire vaccination schedule - around 13-15 weeks old.
- The buyer, at their own expense, should have the kitten examined by a Licensed Vet within 10 Days after receiving the Bengal/s.
- This guarantee does not cover any health issues caused by neglect or injury from the buyer.
- This guarantee does not include minor illnesses and health issues such as colds, allergies, internal or external worms/parasites. However, the breeder/seller will disclose any known illnesses or health issues prior to the sale.

- The 6 month guarantee does not cover ailments, and disorders that are common to the breed, such as kennel cough, giardia, coccidiosis, parasites, worms, demodex, undescended testes, skin and ear mites, entropion, allergies, inguinal, diaphragmatic herniation, heart murmur grade 1, 2, or 3, patella luxation grade 1, 2, 3, loose knees, or hips, umbilical hernia, dermatitis, demodectic mange, feline lower urinary tract diseases, kidney diseases, diabetes. There are too many variables that come into play.
- At no time is the breeder/seller responsible or obligated to pay for Veterinary Treatments that are not agreed upon IN ADVANCE.
- The breeder/seller does not guarantee fertility or ability to place in shows. The kitten is strictly sold as a TOP QUALITY PET.
- The breeder/seller gives a 10-day health guarantee for any genetic defects the kitten may have. If there is a genetic defect found in the kitten/s during the 10-days, the kitten/s can be returned to the breeder/seller, and the buyer will receive another kitten of the same breed when there is one available or full refund will be given.
- Should the Bengal develop any life-threatening medical disorder that is not mentioned in this contract, which is confirmed by two unassociated veterinarians, the breeder/seller will, upon review of veterinary reports, provide a replacement kitten of same quality, sex, etc. As soon as such is available. Any life-threatening disorder must happen or be detected within 6 months from the date of birth.
- Your Bengal will have Life Time Pet Care with NorCalBengals.
